# Advantage90™

## 90-Day Retail Medication Program

Convenience is something we all can appreciate. That's why we're offering you a new benefit: our Advantage90™ Program—a convenient way to get a 90-day supply of your maintenance medications at select retail locations. (Your doctor must authorize a 90-day supply of medication. Some medications may not be available in 90-day supplies under applicable law.)

- **You Save Time.** In many cases, you can go to the same retail location where you usually shop, allowing you to have the face-to-face contact with the pharmacist you have come to trust.
- **You Save Money.** Since your retail pharmacy saves money by filling your prescription once instead of three separate times, we are able to pass some of these savings on to you!

Advantage90 is only available at the pharmacies listed below. But remember... you can still get a 30-day supply of your prescription at any of the more than 54,000 network pharmacies nationwide. And, if mail service better suits your needs, you can rely on us to deliver your 90-day maintenance medications right to your door.

**The choice is yours!** To find out more about your pharmacy benefit, including your prescription coverage, copays, generic alternatives, or to view your prescription history, visit our web site at [mywhi.com](http://mywhi.com). You may also reach us 24 hours, 7-days a week, toll free at 1-800-207-2568 with any questions you might have.

Advantage90 is available at the following locations starting January 1, 2006.
